Market Ready Solutions

Quantum Secure Storage Vault

Turn storage into a quantum secure zero trust storage vault. XQ enables organizations to meet/exceed data security and tracking requirements for regulatory requirements, including HIPAA, ITAR, GDPR and DFARS. Control who, where and when data is accessed. XQ's Vault is the only zero trust solution to provide data residency, data integrity and data security at the data level.

Zero Trust Data Transfer and Migration

The first Zero Trust Data Gateway is an ideal VPN alternative protecting data outside your custody with XQ's breakthrough quantum-safe Zero Trust system design. XQ protects what is most important; the data itself! XQ creates a zero-trust secure circuit for data transfer from anywhere to anywhere with full data provenance and chain of custody.

Zero Trust Communications

Extend Zero Trust security control across your entire communication workflow: Email, forms, and chat with protections that safeguard data integrity, availability, and confidentiality.

Discover the XQ Difference

Highly adaptable, data-centric, and future-proofed.

Level up your security with XQ Message.

Use Cases

- ✓ Data Encryption
- ✓ Data Provenance
- ✓ CMMC 2.0
- ✓ IoT Communications
- ✓ Data Residency
- ✓ Data Sovereignty
- ✓ Data Compliance
- ✓ GDPR
- ✓ Secure Migration
- ✓ Smart Cities
- ✓ Secure Data Lake
- ✓ Secure Storage
- ✓ Healthcare Data
- ✓ Healthcare PHI
- ✓ Digital Rights
- ✓ Data Marketplace
